Tartaglia, L.A., Tepper, R.I., Culpepper, J.A. and White, D.W.
Chimeric proteins comprising the extracellular domain of murine Ob
receptor
Patent: US 6482927-A 25 19-NOV-2002;
Location/Qualifiers
1. 17
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Tartaglia, L.A., Tepper, R.I., Culpepper, J.A. and White, D.W.
Tartaglia, L.A., Tepper, R.I., Culpepper, J.A. and White, D.W.
Chimatic proteins comprising the extracellular domain of murine Ob
receptor
Patent: US 6482927-A 27 19-NOV-2002;
Location/Qualifiers
